Description

Yellow-Black Warning Tape 500 m – Top Quality for Professional Safety Marking

Professional Warning Tape – Effective Marking and Reliable Safety

Our **yellow-black warning tape 500 m**, made of durable polyethylene, is an **essential element for securing construction sites, hazardous zones, and areas requiring immediate marking**. This product is designed for professionals who expect reliability, visibility, and resistance to outdoor conditions.

Warning tape, yellow-black tape, PE safety tape, barricade tape, construction marking tape, hazard tape, barrier tape – these keywords perfectly describe the category of our product and ensure excellent visibility in search engines.

With a length of **500 meters**, weight of approx. **1.5 kg**, and strong yet lightweight **polyethylene material**, our tape guarantees easy unrolling and fast application in all conditions.

Why Choose Our Warning Tape?

High Quality and Excellent Value for Money

As a **manufacturer and direct importer of road safety equipment** with many years of experience, we provide products of the highest quality. Our **yellow-black warning tape** not only ensures effective marking but also offers resistance to weather conditions, UV radiation, and mechanical damage.

Thanks to direct production and import, we offer this product **at a very competitive price**, without intermediaries or extra margins.

Compliance With Safety Regulations

Yellow-black warning tape meets the general requirements for marking hazardous areas in accordance with:

- **General workplace health and safety regulations**,
- Guidelines for securing construction works and temporary obstacles,
- Standards for marking hazardous zones in workplaces, warehouses, production halls, and construction areas.

Yellow-black tapes are widely used for marking obstacles, danger zones, and temporary barriers,

making this product essential for construction, industrial, and technical companies.

Product Specifications – Warning Tape 500 m

- **Material**: polyethylene (PE) – lightweight, strong, durable
- **Color**: yellow-black – maximum visibility
- **Length**: 500 meters – economical and efficient
- **Weight**: approx. 1.5 kg – easy to handle and unroll
- **Suitable for indoor and outdoor use**
- Weather-resistant, tear-resistant, and abrasion-resistant

Product Applications

The yellow-black warning tape is perfect for marking:

- construction sites
- hazardous zones
- roadworks and technical areas
- accident or breakdown locations
- warehouses and industrial halls
- restricted access areas
- installation and renovation sites

It meets safety requirements for visual danger signaling, crucial for protecting workers and bystanders.
