Plastic Chain Post 1300 mm – Red/White with Rubber Base

The **1300 mm plastic chain post (red/white)** is a durable and highly visible traffic-safety device made of strong **polyethylene** with a stable **recycled rubber square base**. It ensures excellent resistance to weather conditions and mechanical damage.

Our company has been a trusted specialist in **road-traffic safety equipment** for many years. We are a **manufacturer and direct importer**, supplying customers across numerous European markets. Most products are shipped **directly from our warehouse**, ensuring **fast delivery** and competitive prices.

Product features

- height: **1300 mm**
- material: **polyethylene (PE)**
- color: **red/white** for maximum visibility
- weight: **2.00 kg**
- base: **recycled black rubber**, square design
- durable, stable, weather-resistant

Applications

Perfect for:

- temporary barriers,
- restricted zones,
- parking management,
- pedestrian and vehicle flow control,
- construction sites and industrial facilities.

5 additional uses

1. Event and festival area separation.
2. Queue guidance in service points.
3. Machinery safety zones in production halls.
4. Temporary walkthroughs in shopping centers.
5. Protection of green areas and fresh landscaping.

High-quality materials and excellent pricing make this **red-white plastic post** an ideal choice for professionals looking for reliable traffic-control equipment.
