Cena dotyczy szpuli 30 mb.

The 6 mm Yellow/Black Warning Chain on a 30 m spool is a practical and highly visible solution for safety zoning and access control in industrial, public and private environments. Its distinctive warning colors and durable construction make it an essential element of modern safety management systems.

Manufactured from high-quality polyethylene, the 6 mm thick chain with 24 × 39 mm links offers excellent resistance to weather conditions, UV radiation and mechanical stress. Alternating yellow and black colors every 0.5 m ensure maximum visibility in accordance with occupational safety and traffic safety standards. Supplied on a convenient 30 m spool, the chain is easy to install, transport and store.

Warning chains are **recommended by occupational health and safety regulations and traffic organization guidelines** for marking hazardous areas, restricted zones and temporary barriers. This product is widely used in construction sites, warehouses, parking facilities, factories and public buildings.

As a manufacturer and direct importer of road and traffic safety equipment, we have been serving wholesale and retail customers across many European markets for years. Our company is well-known and highly regarded, with most products shipped directly from our warehouse to guarantee fast delivery.

Excellent value for money makes this warning chain a cost-effective and long-lasting solution. With a total weight of only 2.5 kg, it is lightweight, flexible and easy to adapt to posts, cones and barrier systems.

Additional applications include:

1. Securing industrial machinery areas
2. Defining safety zones in warehouses
3. Marking restricted parking areas
4. Crowd control during events

5. Access limitation in private properties

We specialize in road safety devices and offer **a very wide range of traffic and safety products** for professional use.
