Description

Pachołek drogowy 30 cm PE - żółto/czarny

Pachołek drogowy o wysokości 30 cm wykonany z wytrzymałego na uszkodzenia polietylenu (PE). Pachołek ostrzegawczy w kolorze żółtym z jednym czarnym paskiem wokół stożka. Można go z łatwością przestawić ze względu na jego niewielką wagę - tylko 0,30 kg. Żółto-czarny pachołek znajduje powszechne zastosowanie do wyznaczania toru jazdy oraz organizacji miejsc parkingowych, z racji swojej kolorystyki jest dobrze widoczny. Pachołki drogowe są wykorzystywane w działalności firm i podmiotów w branżach remontowo-budowlanych, spedycyjno-logistycznych, eventowych i wielu innych. Pachołki żółto-czarne charakterystyczne są dla branży budowlanej oraz BHP.

Cechy:

- Pachołek o wysokości 30 cm.
- Wykonany z trwałego PE.
- Kolor - żółty, 1 czarny pas.
- Waga 0,30 kg.

Traffic Cone 30 cm PE – Yellow/Black
Our **30 cm PE traffic cone in yellow and black** is a high-visibility, lightweight and durable safety device designed for a wide range of professional applications. Manufactured from impact-resistant polyethylene, this warning cone guarantees long service life in demanding conditions, making it a reliable component for traffic control, construction sites, parking management and logistics operations. Its contrasting yellow-black coloring ensures optimal visibility, supporting safe movement and compliance with general **occupational safety and traffic-management guidelines**.

As a company with many years of experience in **road traffic safety equipment**, we are a recognized **manufacturer and direct importer**, supplying both retail and wholesale clients across numerous European markets. Our brand is well-established and valued for reliability, high standards and a wide assortment of professional safety products. Thanks to our extensive warehouse, we ensure **fast delivery**, immediate availability and consistent product quality shipped directly from stock.

The **30 cm yellow/black traffic cone** is extremely lightweight (only 0.30 kg), allowing quick relocation and easy handling during daily operations. It is widely used for marking driving routes, organizing temporary and permanent parking areas, designating work zones and improving visual communication in various environments. The product meets the expectations of industries such as construction, logistics, event management, safety supervision and facility maintenance.

Additional possible applications:

1. Marking training zones for vehicle maneuvering.

2. Delineating pedestrian areas in warehouses.

3. Creating temporary safe pathways during events.

4. Indicating equipment storage or hazard zones.

5. Visual guidance for internal traffic on company premises.

With excellent durability, highly attractive pricing, and superior visibility, this PE traffic cone is the perfect choice for anyone seeking reliable, professional and cost-effective safety equipment delivered quickly by a trusted European supplier.
