Description

Chain Post 110 cm with Plastic Base - Red/White Safety Bollard

Professional Chain Post - Effective and Cost-Efficient Traffic Safety Solution

The **110 cm chain post with a plastic base** is a reliable, functional, and highly popular solution for **traffic safety management**, space organization, and temporary area separation. Designed for intensive use, this product is ideal for both **public spaces and private areas**.

Thanks to its **high-visibility red and white color scheme**, the chain post complies with commonly used **traffic safety and warning standards** across Poland and many European markets. It is an excellent choice for **road authorities, construction companies, parking operators, industrial facilities, event organizers, and individual customers**.

Technical Specifications of the Chain Post

- **Post height:** 1100 mm (110 cm)
- **Material:** high-quality **polyethylene (PE)**
- **Post color:** red/white
- **Base color:** black
- **Base type:** round base, fillable with **water or sand**
- **Weight:** approx. 1 kg (without filling)
- **Equipment:** top cap designed for **chain attachment**

The lightweight construction allows for easy transport and quick installation, while the fillable base ensures excellent stability during use.

Intended Use and Legal Compliance

The chain post is designed for use in accordance with **traffic safety and temporary traffic**

management regulations, including:

- national and European **traffic organization guidelines**
- regulations concerning **temporary traffic control devices**
- standards for **road safety equipment (RSE)**

The red and white color combination is widely recognized as a **warning and safety marking**, improving visibility and safety for pedestrians and drivers. The product is ideal for **temporary fencing, hazard marking, access control, and traffic guidance**.

Why Choose Our Chain Post?

High Quality and Durability

Manufactured from durable polyethylene, the post is **resistant to weather conditions, UV radiation, frost, and mechanical damage**, ensuring long service life even in demanding environments.

Excellent Value for Money

We offer a **high-quality product at a competitive price**, providing an outstanding **quality-to-price ratio** without compromising safety or durability.

Fast Delivery from Our Own Warehouse

Most products are shipped **directly from our warehouse**, guaranteeing **fast order processing and reliable delivery**.

5 Additional Applications for the Chain Post

1. **Temporary parking space separation** and parking lot organization
2. **Event safety management** – concerts, festivals, exhibitions
3. **Pedestrian traffic guidance** in shopping centers and public buildings
4. **Restricted area marking** in warehouses and production halls
5. **Private property use** – driveways, internal roads, and maneuvering areas

Thanks to its versatile design, the chain post can be used in almost any location requiring clear and

visible area marking.

Experience and Trust - About Our Company
