Plastic Chain 6 mm Red-White - 50 m Reel

The 6 mm red-white plastic chain is a versatile and highly visible safety solution designed for temporary area separation, traffic control and hazard marking. Made of durable polyethylene, it offers excellent resistance to weather conditions, UV radiation and mechanical stress.

Safety, visibility and legal compliance

Alternating red and white colors every approx. 0.5 m ensure clear warning visibility in accordance with health and safety regulations, traffic management guidelines and workplace safety standards. Plastic chains are commonly used for temporary barriers without permanent installation.

Link size 24 × 39 mm and total weight of 3.5 kg per 50 m reel provide durability combined with easy handling and transport.

Wide range of applications

Used in road safety, construction, logistics, industrial facilities and event organization.

Additional uses:

1. Parking space separation
2. Pedestrian routes
3. Warehouse safety zones
4. Industrial plants
5. Public events

Why choose our company

We have specialized in road safety equipment for many years. As a manufacturer and direct importer, we are a trusted supplier across European markets. We offer competitive pricing, fast delivery and direct shipment from our warehouse.
