Color	Orange
Material	PCV
Weight	0,5 kg
Shipping time	2-3 days

Description

Pachołek 30 cm PVC - bez pasów

Pachołek drogowy o wysokości 30 cm wykonano z elastycznego i wytrzymałego polichlorku winylu (PVC), dzięki czemu jest wysoce odporny na uszkodzenia mechaniczne i nie kruszy się w wyniku kolizji. Pachołek ostrzegawczy w kolorze pomarańczowym bez dodatkowych oznaczeń, gładki. Waga produktu wynosi 0,50 kg, przez co zachowuje stabilność i z łatwością można go przestawić, co sprawia że jest wysoce mobilny oraz uniwersalny. Pachołek elastyczny znajduje swoje zastosowanie podczas organizacji ruchu drogowego - zarówno toru jazdy, jak i wyznaczania miejsc parkingowych oraz w mniej konwencjonalnych sytuacjach jak treningi piłkarskie czy kolarskie. Nasze pachołki drogowe wykorzystywane są w branży motoryzacyjnej, budowlanej, logistycznej, a także eventowej.

Cechy:

- Pachołek drogowy o wysokości 30 cm.
- Wykonany z elastycznego PVC.
- Kolor - pomarańczowy
- Waga 0,5 kg.
- brak białych pasów

Traffic Cone 300 mm – Flexible Orange PVC Cone Without Stripes | Professional Road Safety Device

Top Quality – Unbeatable Price – Fast Delivery From Our Warehouse

Our **300 mm traffic cone**, made from high-quality **flexible PVC**, is a professional road safety device designed for both commercial and private use. Its **intense orange color** ensures excellent visibility in all weather conditions, while the uniform surface without reflective stripes makes it perfect for areas where regulations do not require reflective elements.

The cone weighs **0.5 kg**, making it stable, yet lightweight and easy to transport. The **300 mm height** is ideal for quick area marking and defining safety zones.

For many years, we have specialized in **road safety equipment**. As a **manufacturer and direct importer**, we offer the best value for money. Our brand is well-known and respected on both the Polish and European markets. We supply wholesale and retail customers, and most of our products are shipped directly from our warehouse, ensuring **express delivery**.

What Makes Our PVC Traffic Cone 300 mm Stand Out?

Flexible PVC – Durability and Impact Resistance

The cone is made from high-quality, highly flexible PVC. This material:

- is resistant to mechanical damage,
- does not crack on impact,
- retains its shape even after repeated vehicle run-overs,
- is resistant to UV rays, rain, and frost.

As a result, the cone is perfect for long-term, multi-season use.

Visibility and Safety

The **intense orange color** ensures high visibility from a distance. It is ideal for temporary markings and securing hazardous areas, in accordance with road safety equipment regulations.

Application According to Legal Requirements

Traffic cones are classified as road safety devices under regulations governing temporary signage, traffic management, and securing:

- road works,
- construction sites,
- hazardous zones,
- public events,
- areas requiring temporary separation.

Our cone fully meets these requirements, ensuring compliance with standards and protecting all road users.

Additional Uses for the 300 mm Traffic Cone

Besides standard road applications, this cone is highly versatile:

1. **Marking routes during sports and mass events** – perfect for running tracks, cycling routes, start/finish zones.
2. **Driving school practice zones** – ideal for car maneuvering training.
3. **Organizing traffic in parking lots** – especially useful in shopping centers and company areas with changing traffic layouts.
4. **Safety zones in warehouses and industrial halls** – marking walkways, loading areas, and internal traffic lanes.
5. **Sports training and children's activities** – great for obstacle courses and coordination exercises.

Why Choose Our Traffic Cone?

- **High-quality, flexible PVC construction**
- **Weather-resistant and impact-resistant**
- **Excellent price-to-quality ratio thanks to in-house production and import**
- **Fast shipping – most products dispatched from our own warehouse**
- **Wide assortment of road safety equipment**
- **Many years of experience and strong market reputation**
- **Wholesale and retail sales across multiple European markets**

Choose Safety, Quality, and Professionalism

By choosing our **300 mm flexible PVC traffic cone**, you invest in a durable, effective, and economical product that meets the expectations of even the most demanding users. Explore our offer and discover why we are a leader in the road safety equipment industry.
