Description

Cone Top Adapter for Mounting Warning Signs - a Reliable and Versatile Road Safety Solution

Professional Cone Adapter - Secure Mounting of Warning Signs

The cone top adapter for mounting warning signs is a high-quality road safety accessory that significantly increases the functionality of standard traffic cones. The product is designed for **safe, stable, and durable installation of warning, information, and temporary traffic signs**.

Thanks to its universal design, this cone adapter is ideal for use in **roadworks, construction sites, industrial areas, and parking facilities**. It is widely chosen by **road authorities, construction companies, technical services**, as well as **wholesale and retail customers**.

Technical Specifications - Durability and Precision

Our **cone adapter with threaded insert** is manufactured with great attention to detail, ensuring long service life and resistance to intensive use:

- **Product type:** cone top adapter for warning sign mounting
- **Thread:** integrated thread for quick and secure screwing of a sign
- **Color:** black – universal and professional appearance
- **Material:** high-quality **PE (polyethylene)**
- **Height:** 70 mm
- **Weight:** approx. 0.05 kg

The use of PE material guarantees resistance to UV radiation, moisture, and both low and high temperatures, making this product suitable for year-round outdoor use.

Intended Use and Compliance with Regulations

The cone top adapter for mounting warning signs is fully compliant with applicable regulations regarding **temporary traffic management** and **road safety equipment**. According to regulations

governing traffic organization, roadworks, accidents, and temporary traffic changes, affected areas must be properly marked.

This product supports compliance with requirements arising from:

- regulations on **roadworks and temporary traffic signage**,
- **health and safety (H&S)** rules on construction sites,
- guidelines for **pedestrian and vehicle safety**.

By enabling the installation of warning, information, and prohibition signs, the cone adapter provides a practical and regulation-compliant solution for multiple industries.

Additional Applications of the Cone Adapter

In addition to standard road safety use, the **threaded cone top adapter** can also be applied in many other areas:

1. Marking **private and public parking areas**
2. Temporary signage during **events and mass gatherings**
3. Hazard warnings on **construction and industrial sites**
4. Defining safety zones in **warehouses and logistics centers**
5. Marking communication routes in **production plants and factories**

Its versatility makes this product an extremely practical element of professional safety equipment.

Why Choose Our Cone Top Adapter?

- **High-quality workmanship** and durable materials
- **Excellent value for money**
- Designed for intensive professional use
- **Fast delivery** – most products are shipped directly from our warehouse

- A proven solution trusted by industry professionals

Our company has specialized in **road traffic safety equipment** for many years. We are both a **manufacturer and a direct importer** of our products. Thanks to our extensive experience, we are **well-known and highly regarded on the market**, offering solutions that meet the expectations of even the most demanding customers.

We supply both **wholesale and retail clients**, selling our products across **multiple European markets**. We offer a **very wide range of road safety products**, allowing us to comprehensively support projects of any scale.

Choose Proven Solutions in Road Traffic Safety

By selecting our **cone top adapter for mounting warning signs**, you are investing in a durable, functional, and regulation-compliant product. It is a reliable solution that improves sign visibility, enhances safety, and increases the professionalism of traffic organization.

Order today and benefit from **fast order processing** and cooperation with a trusted partner in the field of road traffic safety.

Nakładka na pachołek do mocowania tabliczki ostrzegawczej.

Nakładka na pachołek pozwala na szybki i wygodny montaż tabliczki informacyjnej do pachołka. Jest to element niezbędny dla osób ceniących sobie szybkość i wygodę obsługi. Dzięki zastosowaniu tabliczek, jesteśmy w stanie zmienić rolę pachołka z jedynie ostrzegawczej na także informacyjną. Zastosowanie tabliczek pozwala na umieszczanie w nich znaków oraz informacji, co może umożliwić poprawę bezpieczeństwa.

Pasuje do pachołków wysokości 34, 50 i 54 cm.
