Traffic Cone Sign Plate CLIP - top quality, great price, fast delivery

Professional information plate for traffic cones - perfect for companies and public institutions

The CLIP traffic cone sign plate in orange is a top-quality product designed for marking roadwork areas, construction zones, parking lots, warehouses, logistics centers, and any temporarily restricted spaces. The product is made of durable PE material, highly resistant to weather conditions, UV rays, moisture, and mechanical damage.

Our CLIP sign plate offers an excellent price-to-quality ratio, guaranteeing long-lasting use and safety on private and public areas.

CLIP Sign Plate - technical specifications

- **Color:** high-visibility orange
- **Material:** PE (high-grade polyethylene)
- **Dimensions:** 330 x 270 mm
- **Weight:** approx. 0.25 kg
- **Mounting system:** fast and secure CLIP system

The sign plate fits standard traffic cones and can be mounted without tools. The reinforced CLIP mechanism allows repeated installation and removal without loss of stability.

Intended use and compliance

The sign plate is designed for professional safety marking and meets safety guidelines and road regulations, including:

- safety marking in accordance with occupational safety requirements,
- regulations regarding temporary traffic organization,
- road safety device guidelines issued by relevant authorities.

Common areas of use include:

- during roadworks and maintenance works,
- lane closure or temporary traffic redirection,
- electrical, installation or construction works,
- company and private parking areas,
- industrial zones, warehouses, logistics facilities.

Additional possibilities of use

The CLIP sign plate is highly versatile and can be used in many alternative applications, including:

1. **No-parking and no-stopping zones**
 2. **Marking service areas inside industrial facilities**
 3. **Crowd-control and access marking during events and outdoor festivals**
 4. **Temporary slippery surface marking (after cleaning, rain, snow, etc.)**
 5. **Designating loading points and delivery areas**
