Description

Expandable Telescopic Barrier - High Quality, Safety and Versatile Use

Our **expandable telescopic barrier with end loops** is a professional road safety device made of durable **polyethylene**, offering exceptional resistance to damage, weather conditions and intensive use. The barrier in **red-and-white** warning colors is an essential solution wherever quick and highly visible area separation is required.

The adjustable length **from 1360 to 2220 mm** and ultra-lightweight construction (**only 0.66 kg**) make the product easy to transport, simple to install and extremely practical for everyday use.

Professional Safety Device - Compliant with Purpose and Regulations

This barrier perfectly meets the requirements for temporary marking and securing of work areas. Its use is recommended by regulations governing road traffic organization, including guidelines for securing:

- road works,
- temporary construction zones,
- hazardous areas,
- technical and service zones,
- restricted access areas.

Thanks to its **red-and-white** colors, high visibility and quick installation, the barrier serves as an excellent warning and separation device.

Five Additional Ways to Use the Product

Apart from common use in the road safety sector, the telescopic barrier is also ideal for many other situations:

1. **Industrial facilities** – to quickly secure hazardous zones.

2. **Warehouses and logistics centers** – as temporary protection of shelves, ramps or traffic routes.
 3. **Events and mass gatherings** – to organize pedestrian flow and create controlled zones.
 4. **Parking areas** – as a mobile separator for parking spots or technical areas.
 5. **Construction sites** – to mark excavations, work zones and restricted access points.
-

Why Choose This Barrier?

Our company has been specializing in **road traffic safety devices** for many years – we are both a **manufacturer and direct importer**. This allows us to offer the **best value for money**, with full control over production and product quality.

We are a **well-known and respected brand** in the European market, supplying products to **both wholesale and retail customers**. Our **extensive range of road safety equipment** ensures that every client finds the perfect solution.

Most of our products are shipped **directly from our warehouse**, which guarantees **fast delivery** and efficient order processing.

By choosing this expandable telescopic barrier, you are investing in **durability, reliability and safety**, backed by our company's long-standing experience.
