Color	Orange
Material	Akryl
Weight	2.5 kg
Shipping time	3-7 days

Description

Lustro drogowe U-18b.

Materiał: Obudowa - polipropylen, Lustro - aluminiowy akryl

Średnica lustra Ø 50 cm

Lustra okrągłe są produkowane ze specjalnego tworzywa, które zapewnia dużą odporność na uderzenie, czynniki atmosferyczne, promieniowanie UV i kurz.

Tafla lustra wpasowana jest ściśle w obudowę i zabezpieczona uszczelka gumowa. Obudowa zamocowana jest na samogwintujących wkrętach.

Na spodniej stronie lustra do obudowy zamocowany jest stalowy uchwyt montażowy umożliwiający instalację lustra na słupie o minimalnej średnicy 60mm. Istnieje możliwość pozycjonowania lustra w płaszczyźnie poziomej i pionowej.

W przypadku uderzenia i stłuczenia lustra, pęka ono nie krusząc się i nie powodując zranieni ludzi ani innych uszkodzeń.

Traffic Mirror U-18b - Premium Road Safety Equipment for Professional Use

Our **U-18b Traffic Mirror** is a high-performance, certified road safety device designed to significantly improve visibility and prevent accidents in high-risk areas. Manufactured from **polypropylene housing** and **aluminium-acrylic mirror surface**, it guarantees exceptional durability, impact resistance, and long-term performance in all weather conditions.

High Quality, Compliance, and Reliable Construction

The mirror is produced using specialized materials that ensure **UV resistance**, protection against dust, temperature fluctuations, and mechanical impacts. The **50 cm round mirror** is perfectly fitted into its housing and secured with a durable rubber gasket. The rear side features a **steel mounting bracket** allowing installation on poles with a minimum diameter of 60 mm. The bracket makes it possible to adjust the mirror horizontally and vertically, ensuring optimal positioning.

This product meets the requirements of **European road safety regulations**, which recommend using traffic mirrors to improve visibility at intersections, sharp turns, parking exits, industrial areas, and locations with restricted sight distance. In case of damage, the mirror cracks without shattering, preventing injuries and equipment damage – an important feature required for public-space safety equipment.

Wide Applications and Additional Uses

Beyond standard road applications, the **U-18b Traffic Mirror** can be effectively used for:

1. Enhancing surveillance in warehouses and logistics facilities.
2. Improving visibility for forklift and vehicle traffic indoors.

3. Increasing security around building entrances and loading zones.
4. Monitoring blind spots in parking garages.
5. Assisting security staff in commercial areas and public buildings.

Trusted Supplier and Excellent Value

Our company has specialized in **road safety devices for many years**. As a **manufacturer and direct importer**, we supply high-quality products across multiple European markets, serving both wholesale and retail customers. Most orders ship directly from our warehouse, ensuring **fast delivery**. With excellent quality, a wide product range, and competitive pricing, the **U-18b Traffic Mirror** guarantees outstanding value for money and professional performance.
