Material	PCV
Weight	0,9 kg
Shipping time	2-3 days

Description

Pachołek 34 cm PVC 0,9 kg

Pachołek drogowy 34 cm wykonany z elastycznego PVC świetnie sprawdza się jako sygnał ostrzegawczy na drodze. Ta wersja pachołka jest stosunkowo ciężka z porównaniem do swoich odpowiedników w segmencie pachołków ostrzegawczych o wysokości 30 cm. Pozwala to na utrzymanie wysokiej stabilności na drodze i zapobieganie przewróceniu. Pachołki drogowe wykonane z PVC są wyjątkowo wytrzymałe na uszkodzenia mechaniczne na drodze, uginając się a nie pękając. Gumowe pachołki świetnie sprawdzają się w środowisku o natężonym ruchu pojazdów, wyraźnie wyznaczając krawędź toru jazdy czy zabezpieczając miejsca niebezpieczne albo wyłączone z ruchu. Pachołek ostrzegawczy znajduje swoje zastosowanie w wielu branżach jak np, sportowej, motoryzacyjnej czy drogowej.

Cechy:

- Pachołek drogowy o wysokości 34 cm.
- Wykonany z elastycznego PVC.
- Kolor - pomarańczowy, 1 biały pas.
- Waga 0,9 kg.

Traffic Cone 340 mm - Professional Traffic Safety Equipment

Durable PVC Traffic Cone - Ideal for Marking and Securing Various Areas

Our **340 mm traffic cone** in a highly visible **bright orange color with a white stripe** is a durable and practical traffic safety device designed for quick and effective marking of various types of spaces. Made from high-quality **PVC material**, it features excellent resistance to mechanical damage, weather conditions, and UV radiation. This makes it perfect for everyday use, both professional and private.

Why Choose Our 340 mm Traffic Cone?

Visibility and Safety

The vivid **orange color** combined with a **contrasting white band** ensures good daytime visibility. According to regulations governing temporary traffic signage as well as guidelines included in the **Road Traffic Act** and relevant decrees on signs and signals, traffic cones are used to mark worksites, obstacles, and areas requiring increased caution. Our product meets these requirements and supports the safe organization of work zones.

Durable PVC Construction

The cone is made from high-quality **PVC**, ensuring flexibility, resistance to deformation, and long-term durability even under intensive use. It does not crack, does not crumble, and remains stable in various temperatures.

Excellent Value for Money

Our cone stands out thanks to its **high manufacturing quality** combined with a competitive price. It is an ideal choice for companies, institutions, and individual customers seeking a reliable and cost-effective solution.

Product Applications

The 340 mm traffic cone is perfect for:

- marking **roadworks** and hazardous areas,
- securing **public and private spaces**,
- designating **work zones** on parking lots, maneuvering areas, and construction sites,
- organizing temporary traffic arrangements during public events,
- controlling pedestrian flow and blocking access to restricted areas.

In line with current regulations on temporary traffic signage, this type of cone is approved for use across many sectors, including construction, logistics, industry, and services.

Additional Suggested Uses (5 ideas)

1. **Sports training** – marking routes, zones, and obstacle courses.
2. **Driving lessons** – creating maneuvering areas for driver training.
3. **Warehouse logistics** – marking hazardous zones or restricted access areas.
4. **Service and workshop areas** – separating operational or repair zones.
5. **Private parking lots** – quickly marking spaces temporarily closed or reserved.

Why Buy from Us?

Our company has specialized in **traffic safety equipment** for many years. We are both a **manufacturer and a direct importer**, which allows us to offer top-quality products at highly competitive prices.

- We operate across **multiple European markets**, serving wholesale and retail customers.
- We offer a **very large selection of traffic and road safety products**, making us one of the leaders in the industry.
- Most of our items are shipped **directly from our warehouse**, guaranteeing **fast delivery**.
- Our brand is **well-known and respected**, trusted by professionals in the traffic, construction, and industrial sectors.

Summary

If you are looking for a **durable, visible, and regulation-compliant traffic cone** with excellent value for money, our **340 mm PVC orange cone with a white stripe** is the perfect choice. It is a reliable tool for fast and effective area protection, available with express shipping straight from our warehouse.
