Description

Red Traffic Cone Topper with Retractable Red-White Belt – fast and highly visible area protection

This **red cone topper with a 2,5-meter retractable red-white belt** is an effective tool for marking restricted zones, maintenance areas and safety perimeters. Made from flexible and durable polyethylene, it performs exceptionally well under heavy daily use, both indoors and outdoors. It fits most standard traffic cones, making it a universal safety accessory.

Technical details

- Material: durable polyethylene
- Topper colour: red
- Belt colour: red-white
- Belt length: 2,5 m
- Belt width: 5 cm
- Automatic spring retraction system
- Weight: approx. 0.5 kg
- Option to attach up to three additional belts
- Compatible with the majority of cones

Main benefits

The strong visual contrast of the red-white belt ensures immediate noticeability. The automatic tensioning mechanism enables users to quickly set up or remove barriers. The topper is weather-resistant, shock-resistant and ideal for demanding industrial environments.

Recommended applications

- construction and renovation sites
- logistics zones and warehouses
- industrial facilities
- public events and mass gatherings
- restricted access areas

Five additional uses

- temporary parking space marking
- guiding pedestrian movement
- service and inspection areas
- training and demonstration zone organisation

- marking emergency access routes

Why purchase from us?

We are a long-established manufacturer and importer of **road safety equipment**. Our products combine high durability with competitive prices. We supply numerous European markets and offer fast shipping directly from our warehouse. Every topper includes a warranty and is made from materials that meet strict safety standards.
