Popis

Slowly 5 – 2 m modular speed bump set 50 mm, yellow/black, with fixings

Complete 2 m Slowly 5 speed bump kit – ready-to-install traffic calming solution

The **Slowly 5 2 m speed bump set** is a complete, ready-to-install **traffic calming solution** designed to reduce vehicle speed in car parks, internal roads and private sites. The set consists of **2 end elements and 3 middle elements**, forming a total length of **2 metres**. The modules are arranged in an alternating **yellow/black pattern**, which ensures excellent visibility and clearly highlights the location of the speed bump for approaching drivers.

All modules of the Slowly 5 system are made from **flexible and durable recycled material**, resistant to intensive traffic, changing temperatures and outdoor conditions. The system height of **50 mm** provides effective speed reduction while still allowing comfortable passage at appropriate speed. This 2 m kit is ideal for **car parks at shops and offices, residential roads, industrial yards, logistics centres and service stations**.

Technical details – Slowly 5 2 m speed bump set

- Total length of the speed bump: **2.0 m**
- Height: **50 mm**
- Set composition: **2 end elements + 3 middle elements**
- End elements: **250 × 400 × 50 mm**, approx. **2 kg** each
- Middle elements: **500 × 400 × 50 mm**, approx. **8 kg** each
- Colour pattern: **yellow/black alternating** (starting with yellow)
- Material: **flexible, robust recycled material**
- Fixing points: **2 bolts per end element, 4 bolts per middle element**
- Recommended anchors: **12 × 120 mm screws with plugs and large washers**

Included fixings – set ready for installation

The 2 m Slowly 5 speed bump kit is supplied as a **complete installation set**. The **price of the set includes all necessary fixing screws and plugs**, matched to the number of elements in the kit. You do not need to calculate or order additional hardware – everything required to fix the speed bump to the ground is included in the shipment.

The standard configuration starts with a **yellow element**, followed by **black/yellow/black**, ending with a yellow end piece, giving a clear, high-contrast pattern. If you need a different colour sequence for your site, you can specify this in your order and we will adjust the set accordingly.

Legal aspects – use of speed bumps on public roads

The Slowly 5 speed bump set is a professional **road safety device**. When used on **public roads**, national traffic regulations and technical standards must be followed. In particular, **the use of vertical**

traffic calming devices on public roads requires appropriate traffic signs placed at the correct distance before the bump. The road authority or investor is responsible for correct signage and compliance with local legal requirements and approved traffic management design.

Application and usage scenarios

The 2 m Slowly 5 modular speed bump set is a versatile traffic calming solution suitable for:

- car parks at supermarkets, retail parks and office buildings,
- internal access roads in residential and mixed-use developments,
- industrial sites, logistics yards and warehouse entrances,
- driveways to company premises, security gates and barrier-controlled entries,
- service stations, car washes and private access roads.

Five additional ways to use the 2 m Slowly 5 set

1. Creating low-speed zones at staff and visitor car park entrances.
2. Separating pedestrian crossings from faster traffic sections.
3. Reducing speed in warehouse areas with forklift and HGV traffic.
4. Temporary traffic calming during events or changes in site layout.
5. Using several 2 m sets to build longer, modular traffic calming lines.

High quality, warranty and experienced supplier

The Slowly 5 2 m speed bump set is supplied with a **warranty**. The use of **high-quality recycled material** ensures long service life, resistance to mechanical loads and low maintenance requirements. The set offers an excellent **price-to-quality ratio**, making it a cost-effective solution for both small sites and large projects.

Our company has many years of experience in **road safety equipment**. We operate as a **manufacturer and direct importer** of speed bumps, traffic calming devices and a wide range of road products. We supply wholesale and retail customers on numerous European markets. **Most products are shipped directly from our warehouse**, ensuring **fast delivery** and high availability. Our range of **road safety devices** is very wide, and the Slowly 5 modular system is one of our core solutions for effective traffic calming.
