Dimension	900 mm
Color	Red/white
Material	PE
Weight	6 kgs
Shipping time	2-5 days

Description

Słupek do łańcucha.

Wykonany z polietylenu.

Wysokość - 90 cm.

Kolor - biało/czerwony.

Podstawa ośmiokątna, plastikowa, czarna - z możliwością wypełnienia wodą lub piaskiem-osiąga wagę do 6 kg

Posiada kapturek z czterema otworami do zaczepienia łańcucha lub taśmy ostrzegawczej.

Przeznaczenie - stworzenie szybkiego wygrozdzenia w biurze, magazynie, na parkingu.

Chain Post 90 cm White/Red - Octagon Plastic Base 6 kg

The 90 cm white/red chain post is a high-quality traffic safety device designed for fast and effective area separation. Made from durable polyethylene, it offers excellent resistance to impacts, cracking and weather conditions. The black octagonal plastic base, which can be filled with water or sand up to 6 kg, ensures stability even in demanding environments.

The white/red colour pattern provides outstanding visibility, and the cap with four attachment holes allows quick installation of a chain or warning tape. This makes the post compliant with general safety and workplace marking requirements, widely used in warehouses, offices, work sites, logistics centers, and parking areas. It is recommended by safety regulations for temporary hazard marking and access control.

Ideal for indoor and outdoor use, this chain post enables fast and flexible demarcation of restricted areas, pedestrian lanes, technical zones and temporary safety spaces. Its lightweight yet durable construction makes it an essential tool for daily operational management.

Our company has been specialising in **road traffic safety equipment** for many years. As a manufacturer and direct importer, we are well-known across European markets for reliability, wide product availability and excellent customer service. Most products are shipped directly from our warehouse, guaranteeing fast delivery and an outstanding price-to-quality ratio. We supply both wholesale and retail customers throughout Europe.

Additional suggested applications:

1. Technical maintenance zones
2. Production hall walkway marking
3. Event crowd management

4. Queue formation and entrance control

5. Protecting green areas from vehicle entry
