Description

Lightweight and Durable 54 cm Hard PE Traffic Cone - Effective Warning Barrier

Our **innovative traffic cone** with a height of **54 cm** was created for maximum **functionality** with minimal weight. Made of **hard polyethylene (PE)**, it is characterized by **high mechanical resistance, dimensional stability**, and insensitivity to extreme temperatures. The low weight (**0.9 kg**) makes it the **best cone** for applications requiring frequent repositioning and transport.

Purpose and Technical Standards: This **solid warning cone** made of **hard plastic** is crucial in systems for **temporary road marking** and **area security**. It is perfect where regulations suggest clear separation of zones, e.g., on highways, in warehouse logistics, and in urban areas. Hard PE provides **excellent UV resistance**, extending its lifespan compared to standard PVC.

Additional Applications (Beyond the Standard):

1. **Airports and Ports:** Lightweight delineation of taxiways and control zones, easy to remove.
2. **Playgrounds and Schools:** Safe and light separation of zones for children, minimizing tripping hazard.
3. **Sports Halls:** Quick creation of obstacle courses and training zones.
4. **Cleaning and Maintenance Crews:** Restricting access to wet floors or work areas inside buildings.

As a **manufacturer** and **direct importer** of **road safety equipment**, our company has been a **leader in the European market** for years. We specialize in supplying **highest quality solutions** made of **hard PE** for **wholesale** and **retail** customers. Our company, known for having **probably the largest assortment of traffic cones in Europe**, guarantees **competitive prices** and **fast shipping**. Choose **durable, lightweight, and professional demarcation** – choose the **PE 54 cm cone**!
