

Sand container 150 L (215 kg) yellow

Sorfan

SKU: M150Y

Gross Price: Kč 2,947.56

Net Price: Kč 2,436.00

Technical Specification

Attribute	Value
Dimension	150 L - 865x519x538 mm
Color	Yellow
Material	PE
Weight	11 kg
Shipping time	2-3 days
Production time of 100 pcs	8 days

Description

150 L Yellow Sand and Salt Container - High-Visibility Polyethylene Grit Bin

150 L yellow grit bin - compact yet highly visible winter safety solution

The **150 L yellow sand and salt container** is a compact, high-visibility grit bin designed for locations where quick access to de-icing material and clear identification of winter equipment are both essential. The bright yellow colour ensures that the bin stands out on car parks, forecourts, fuel stations and near entrances, even in poor weather or low light conditions. It is an excellent choice for sites that prioritise safety and want a clearly marked storage point for sand and salt.

The container body is made from **durable, flexible polyethylene**, providing strong resistance to impact, frost, moisture and UV radiation. **Rounded edges** improve handling safety and help protect nearby vehicles and structures from accidental damage. The sturdy, **secure closing lid** protects the stored sand, rock salt or de-icing mixtures from rain, snow and dirt so that the material remains dry, free-flowing and ready for immediate use whenever icy conditions occur.

Key technical features - 150 L yellow sand and salt container

- Capacity: **150 litres**
- Use: **storage of sand, road salt and de-icing mixtures**
- Material: **high-quality polyethylene**
- Colour: **yellow - high visibility**
- Edges: **rounded for safe handling**
- Lid: **secure, weather-resistant closing lid**
- Application: **year-round outdoor use**

Benefits - why choose a 150 L yellow grit bin?

With its 150 L capacity, the yellow sand and salt container is perfect for localised storage points where space is limited but safety is critical. Placing the bin close to ramps, stairs, crossings and entrances helps operators comply with **winter safety and duty-of-care obligations** while enabling staff to react quickly when snow and ice appear. The high-visibility yellow finish also helps visitors and employees instantly recognise where de-icing material is stored.

The container is supplied with a **warranty**, and the robust polyethylene body ensures a long service life with minimal maintenance. Combining compact dimensions, high visibility and strong durability, the 150 L yellow grit bin offers an excellent **price-to-quality ratio** for commercial, industrial and public-sector users.

Typical applications and usage scenarios

The 150 L yellow sand and salt container is particularly suitable for:

- car parks at shops, service stations and small retail parks,
- fuel stations, car washes and vehicle service areas,
- entrances and access routes to offices, public buildings and commercial properties,
- internal roads and walkways on residential or mixed-use sites,
- loading bays, delivery zones and other areas prone to icing.

Five additional uses for the 150 L yellow container

1. Storage of spill kits, absorbents and emergency clean-up materials in workshops.
2. Container for small aggregates, gravel or granulate on smaller construction projects.
3. Feed or grain bin for small farms and animal facilities.
4. Multi-purpose storage box for winter equipment, snow shovels and PPE.
5. Container for cleaning supplies, bin bags and maintenance products in public buildings.

Efficient pallet packing - up to 17 containers per pallet

For larger projects and multi-site orders, we offer optimised pallet loading. In a single shipment, we can **load up to 17 pieces of 150 L containers on one pallet**, making transport more cost-effective and simplifying handling in warehouses and on site. This is especially useful for facility managers responsible for multiple properties.

Road safety equipment from a trusted supplier

Our company has many years of experience in **road safety equipment**. As a **manufacturer and direct importer**, we supply sand and salt containers, traffic products and other safety solutions to customers across various European markets. We work with both wholesale and retail customers, and **most products are dispatched directly from our warehouse**, ensuring fast delivery and reliable availability. The 150 L yellow sand and salt container is an important part of our winter safety range, providing a compact, highly visible and durable solution for sites of all sizes.
