

Sand container 150 L (215 kg) blue

Sorfan

SKU: M150B

Gross Price: Kč 2,421.21

Net Price: Kč 2,001.00

Technical Specification

Attribute	Value
Dimension	150 L - 865x519x538 mm
Color	Blue
Material	PE
Weight	11 kg
Shipping time	2-3 days
Production time of 100 pcs	8 days

Description

150 L Blue Sand and Salt Container - Compact Polyethylene Grit Bin

150 L blue grit bin - professional winter maintenance solution for limited spaces

The **150 L blue sand and salt container** is a compact, professional-looking grit bin designed for locations where a reliable supply of de-icing material is required, but available space is limited. Its 150-litre capacity is ideal for installations near entrances, ramps, stairways, small car parks and loading points. The blue colour gives the container a technical, modern appearance that fits perfectly into industrial estates, logistics hubs, office complexes and commercial sites.

The container is manufactured from **durable, flexible polyethylene**, offering excellent resistance to impact, frost, moisture and UV radiation. **Rounded edges** improve handling safety and help protect nearby surfaces and vehicles from accidental damage. The robust, **secure closing lid** shields the stored sand, road salt or de-icing mixtures from rain, snow and dirt, keeping the anti-slip material dry and free-flowing throughout the winter season.

Key technical features - 150 L blue sand and salt container

- Capacity: **150 litres**
- Use: **storage of sand, road salt and de-icing mixtures**
- Material: **high-quality polyethylene**
- Colour: **blue**
- Edges: **rounded for safe handling**
- Lid: **secure, weather-resistant closing lid**
- Application: **year-round outdoor use**

Benefits - why choose the 150 L blue grit bin?

The 150 L capacity is perfectly suited to smaller and medium-sized sites where a large bulk store is not required, but where staff must have de-icing material readily available. Positioning the container close to doors, steps and pedestrian routes helps operators comply with **winter safety and duty-of-care regulations**, reducing slip risks for employees, visitors and residents. The polyethylene body is corrosion-free and requires very little maintenance, even after several winter seasons.

The container is supplied with a **warranty**, and the combination of compact size, robust construction and professional blue finish offers a highly attractive **price-to-quality ratio**. It is a practical choice for industrial facilities, office buildings, commercial properties and public-sector sites.

Typical applications and usage scenarios

The 150 L blue sand and salt container is particularly suitable for:

- entrances and access routes at offices, shops and service buildings,
- small car parks and staff parking bays,
- ramps, loading points and delivery areas,
- internal roads and walkways on industrial or commercial estates,
- schools, hospitals and other public buildings.

Five additional uses for the 150 L blue container

1. Storage of industrial absorbents, spill kits and cleaning granules in workshops.
2. Container for small aggregates, gravel or granulate on construction and renovation sites.
3. Feed or grain bin for smaller farms and equestrian facilities.
4. Multi-purpose storage box for tools, PPE and maintenance equipment.
5. Container for cleaning chemicals, rubbish bags and winter tools in public buildings.

Efficient pallet loading - up to 17 containers per pallet

To simplify logistics and reduce transport costs for larger orders, we offer optimised pallet packing. In a single shipment, we can **load up to 17 pieces of 150 L containers on one pallet**, which makes distribution across multiple sites easier and more cost-effective for facility managers and maintenance teams.

Road safety equipment from an experienced supplier

Our company has extensive experience in **road safety equipment**. As a **manufacturer and direct importer**, we supply sand and salt containers, traffic products and other safety solutions to customers across numerous European markets. We work with both wholesale and retail clients, and **most products are dispatched directly from our warehouse**, ensuring fast delivery and reliable availability. The 150 L blue sand and salt container is an important part of our winter safety range, offering a compact, durable and visually appealing solution for smaller sites.
