

Sand container 250 L (360 kg) yellow

SKU: M250Y

Gross Price: Kč 4,912.60

Net Price: Kč 4,060.00

Technical Specification

Attribute	Value
Dimension	250 L - 976x756x795 mm
Color	Yellow
Material	PE
Weight	18 kg
Shipping time	2-3 days
Production time of 100 pcs	8 days

Description

250 L Yellow Sand and Salt Container - High-Visibility Polyethylene Grit Bin

250 L yellow grit bin - large capacity and clearly visible storage point

The **250 L yellow sand and salt container** is a high-capacity, high-visibility grit bin designed for sites where a substantial reserve of de-icing material must be stored directly at the point of use. The bright yellow colour makes the bin easy to spot on car parks, internal roads, fuel station forecourts and around public buildings, even in poor weather or low light conditions. This helps staff and users quickly locate the sand and salt when icy conditions occur.

The container body is made from **durable, flexible polyethylene**, providing excellent resistance to impact, frost, moisture and UV radiation. **Rounded edges** improve handling safety and reduce the risk of damage to vehicles, walls and surrounding infrastructure. The robust, **secure closing lid** protects the stored sand, rock salt or de-icing mixtures from rain, snow and dirt, ensuring that the anti-slip material remains dry and free-flowing throughout the winter season.

Key technical features - 250 L yellow sand and salt container

- Capacity: **250 litres**
- Use: **storage of sand, road salt and de-icing mixtures**
- Material: **high-quality polyethylene**
- Colour: **yellow - high visibility**
- Edges: **rounded for safe handling**
- Lid: **secure, weather-resistant closing lid**
- Application: **year-round outdoor use**

Benefits - why choose a 250 L yellow grit bin?

With its 250 L capacity, this sand and salt container provides a generous buffer of de-icing material, making it ideal for larger car parks, internal roads, loading areas and busy pedestrian zones. The high-visibility yellow finish helps both staff and visitors quickly identify where de-icing material is stored, supporting compliance with **winter safety and duty-of-care regulations** and reducing slip-and-fall risks for pedestrians and vehicles.

The grit bin is supplied with a **warranty**, and the robust polyethylene construction ensures a long service life with minimal maintenance. Combining high capacity, strong visibility and durable materials, the 250 L yellow sand and salt container offers an excellent **price-to-quality ratio** for commercial, industrial, municipal and public-sector applications.

Typical applications and usage scenarios

The 250 L yellow sand and salt container is particularly suitable for:

- car parks at retail sites, supermarkets and shopping centres,
- fuel stations, car washes and service areas,
- internal access roads and manoeuvring areas at industrial and logistics facilities,
- the surroundings of public buildings, offices and transport hubs,
- sites with frequent icing and a high level of pedestrian or vehicle traffic.

Five additional uses for the 250 L yellow container

1. Storage of spill kits, industrial absorbents and emergency response materials.
2. Container for aggregates, gravel and loose construction materials on larger projects.
3. Feed or grain bin in agricultural and equestrian facilities.
4. Multi-purpose storage box for tools, snow shovels and winter PPE in transport depots.
5. Container for cleaning products, bin bags and maintenance supplies in public buildings.

Efficient pallet loading - up to 15 containers per pallet

To make logistics more efficient for larger orders, we offer optimised pallet packing. In a single shipment, we can **load up to 15 pieces of 250 L containers on one pallet**, reducing transport costs per unit and simplifying handling and distribution across multiple sites.

Road safety equipment from a trusted manufacturer

Our company has many years of experience in **road safety equipment**. As a **manufacturer and direct importer**, we supply sand and salt containers, traffic products and other safety solutions to customers throughout Europe. We serve both wholesale and retail clients, and **most products are dispatched directly from our warehouse**, ensuring fast delivery and reliable availability. The 250 L yellow sand and salt container is an important part of our winter safety range, offering a durable, clearly visible and practical solution for demanding sites.
