

Sand container 250 L (360 kg) blue

Sorfan

SKU: M250B

Gross Price: Kč 4,912.60

Net Price: Kč 4,060.00

Technical Specification

Attribute	Value
Dimension	250 L - 976x756x795 mm
Color	Blue
Material	PE
Weight	18 kg
Shipping time	2-3 days
Production time of 100 pcs	8 days

Description

250 L Blue Sand and Salt Container - High-Capacity Polyethylene Grit Bin

**250 L blue grit bin
- professional
winter
maintenance
solution for
demanding sites**

The **250 L blue sand and salt container** is a high-capacity, professional grit bin designed for sites where a larger reserve of de-icing material is needed close to critical areas. The blue colour gives the bin a technical, industrial look that fits perfectly into warehouses, logistics centres, fuel stations, commercial premises and large service areas.

The container body is manufactured from **durable, flexible polyethylene**, providing excellent resistance to impact, frost, moisture and UV radiation. **Rounded edges** improve handling safety and reduce the risk of damage to vehicles, walls and surrounding infrastructure. The robust, **secure closing lid** protects the stored sand, rock salt or de-icing mixtures from rain, snow and dirt, ensuring that the anti-slip material remains dry and free-flowing throughout the winter season.

Key technical features - 250 L blue sand and salt container

- Capacity: **250 litres**
- Use: **storage of sand, road salt and de-icing mixtures**
- Material: **high-quality polyethylene**
- Colour: **blue - technical, professional appearance**
- Edges: **rounded for safe handling**
- Lid: **secure, weather-resistant closing lid**
- Application: **year-round outdoor use**

Benefits - why choose a 250 L blue grit bin?

With its generous 250 L capacity, this sand and salt container provides a substantial buffer of de-icing material directly at the point of use. It is particularly well suited to loading bays, car parks, internal roads and busy access routes, where fast, local application of grit is essential to maintain safe conditions. Using the container helps facility managers comply with **winter safety and duty-of-care regulations** and reduces slip-and-fall risks for pedestrians, drivers and vehicles.

The grit bin is supplied with a **warranty**, and the robust polyethylene construction ensures a long service life with minimal maintenance. Combining high capacity, technical appearance and durable materials, the 250 L blue sand and salt container offers an attractive **price-to-quality ratio** for industrial, commercial and public-sector applications.

Typical applications and usage scenarios

The 250 L blue sand and salt container is ideal for:

- car parks and manoeuvring areas at warehouses, factories and logistics hubs,
- loading bays, service yards and delivery zones,
- internal access roads and traffic routes on industrial estates,
- larger car parks at retail sites and fuel stations,
- any site where a significant amount of de-icing material must be stored locally.

Five additional uses for the 250 L blue container

1. Storage of industrial absorbents, spill kits and emergency response equipment.
2. Container for aggregates, gravel and other loose construction materials on larger projects.
3. Feed or grain bin for agricultural and equestrian facilities.
4. Multi-purpose storage box for tools, fixings and winter equipment in transport depots.
5. Container for cleaning products, bin bags and maintenance supplies in public buildings.

Efficient pallet loading - up to 15 containers per pallet

To support larger orders and multi-site deliveries, we offer optimised pallet packing. In a single shipment, we can **load up to 15 pieces of 250 L containers on one pallet**, which reduces transport costs per unit and simplifies handling for warehouse staff and maintenance teams.

Road safety equipment from an experienced supplier

Our company has extensive experience in **road safety equipment**. As a **manufacturer and direct importer**, we supply sand and salt containers, traffic products and other safety solutions to customers across multiple European markets. We serve both wholesale and retail clients, and **most products are dispatched directly from our warehouse**, ensuring fast delivery and reliable availability. The 250 L blue sand and salt container is an important part of our winter safety range, providing a high-capacity, professional and durable solution for demanding sites.
