

Sand container 250 L (360 kg) green

SKU: M250G

Gross Price: Kč 4,912.60

Net Price: Kč 4,060.00

Technical Specification

Attribute	Value
Dimension	250 L - 976x756x795 mm
Color	Green
Material	PE
Weight	18 kg
usable floor area	360 kg
Shipping time	2-3 days
Production time of 100 pcs	8 days

Description

250 L Green Sand and Salt Container - High-Capacity Polyethylene Grit Bin

250 L green grit bin - an ideal balance between capacity and footprint

The **250 L green sand and salt container** is a high-capacity yet visually discreet grit bin designed for sites that require more de-icing material than smaller bins can hold, without compromising the appearance of the surroundings. Its green colour blends naturally into landscaped areas, residential developments, office parks and public spaces, making it suitable for a wide range of environments.

The container body is made from **durable, flexible polyethylene**, providing excellent resistance to impact, frost, moisture and UV radiation. **Rounded edges** enhance handling safety and help protect nearby vehicles, walls and infrastructure from accidental damage. The robust, **secure closing lid** protects the stored sand, rock salt or de-icing mixtures from rain, snow and dirt, ensuring that the anti-slip material remains dry and free-flowing throughout the winter season.

Key technical features - 250 L green sand and salt container

- Capacity: **250 litres**
- Use: **storage of sand, road salt and de-icing mixtures**
- Material: **high-quality polyethylene**
- Colour: **green - discreet, natural appearance**
- Edges: **rounded for safe handling**
- Lid: **secure, weather-resistant closing lid**
- Application: **year-round outdoor use**

Benefits - why choose a 250 L green grit bin?

With its 250 L capacity, this sand and salt container is an excellent choice for car parks, internal roads, pedestrian routes and building surroundings where a larger quantity of de-icing material is needed on site. Placing the bin close to critical areas helps property owners and facility managers comply with **winter safety and duty-of-care regulations**, reducing slip-and-fall risks for pedestrians and vehicles.

The container is supplied with a **warranty**, and the robust polyethylene body ensures a long service life with minimal maintenance. Combining generous storage volume with a relatively compact footprint, the 250 L green grit bin delivers an attractive **price-to-quality ratio** for residential, commercial, industrial and public-sector users.

Typical applications and usage scenarios

The 250 L green sand and salt container is particularly suitable for:

- car parks at offices, retail sites and service buildings,

- internal roads and access routes in industrial and logistics facilities,
- residential developments, courtyards and shared outdoor spaces,
- schools, sports facilities and recreational areas,
- public buildings with larger paved areas around the site.

Five additional uses for the 250 L green container

1. Storage of industrial absorbents, spill kits and emergency response materials.
2. Container for aggregates, gravel and other loose construction materials on larger sites.
3. Feed or grain bin in agricultural and equestrian facilities.
4. Multi-purpose storage box for tools, spare parts and winter equipment in transport depots.
5. Container for cleaning products, bin bags and maintenance supplies in public buildings.

Efficient pallet loading - up to 15 containers per pallet

To support larger projects and multi-site orders, we offer optimised pallet packing. In a single shipment, we can **load up to 15 pieces of 250 L containers on one pallet**, making transport more cost-effective and simplifying handling for warehouse and maintenance teams.

Road safety equipment from an experienced manufacturer

Our company has many years of experience in **road safety equipment**. As a **manufacturer and direct importer**, we supply sand and salt containers, traffic products and other safety solutions to customers across numerous European markets. We work with both wholesale and retail customers, and **most products are dispatched directly from our warehouse**, ensuring fast delivery and reliable availability. The 250 L green sand and salt container is a key part of our winter safety range, offering a durable, practical and visually appealing solution for demanding sites.
