Krabicové balení - po 200bm - 14kg

Vlastnosti:

- Voděodolný
- Odolný vůči soli a chemikáliím
- Lehký
- Lze mýt

Premium Blue Plastic Chain - Versatile and Durable

Introducing our Premium Blue Plastic Chain, a top-tier solution for a variety of applications. With a thickness of 6 mm and a lightweight design of just 0.07 kg per meter, this chain is crafted from high-quality, durable plastic that ensures longevity and resilience in various environments. Whether you are looking to enhance safety measures at construction sites, organize events, or delineate areas, our blue plastic chain is the perfect choice.

Purpose and Legal Compliance Our blue plastic chain is designed to meet the stringent requirements of safety regulations in various industries. It is ideal for traffic management, crowd control, and marking off restricted areas. By using this chain, you not only ensure the safety of individuals but also comply with local laws regarding public safety and organization.

Five Additional Uses for the Blue Plastic Chain:

1. Event Management: Create barriers for outdoor festivals or fairs
2. Parking Lot Management: Effectively guide traffic flow in busy areas
3. Construction Sites: Clearly mark off hazardous zones to keep pedestrians safe
4. Warehouse Organization: Use the chain to designate storage areas or pathways
5. Pet Containment: Keep pets safe and contained during outdoor activities.

At our company, we have been a trusted name in the road safety equipment industry for many years. As both a manufacturer and direct importer, we pride ourselves on our extensive selection of road

safety products. Most of our items ship directly from our warehouse, ensuring fast delivery to our customers.
