Description

Red Traffic Cone Topper with 9 m Red-White Belt - extended, professional large-area safety barrier

This **red cone topper with a 9-meter red-white retractable belt** is engineered for applications requiring wide-range safety demarcation. Its durable polyethylene construction ensures long-term performance in demanding environments such as industrial facilities, logistics centres, construction sites and public events.

Technical details

- Material: impact-resistant polyethylene
- Topper colour: red
- Belt colour: red-white
- Belt length: 9 m
- Belt width: 5 cm
- Automatic spring-loaded retraction system
- Weight: approx. 0.5 kg
- Option to attach up to three additional belts
- Fits most traffic cones

Main benefits

The extended 9-meter belt enables effective coverage of large areas with minimal equipment. The strong red-white pattern ensures early visual detection. The automatic retraction mechanism supports fast operation and efficient workflow.

Applications

- construction and renovation zones
- industrial warehousing
- public safety management
- traffic redirection
- restricted work areas

Additional use cases

- temporary pedestrian pathways
- emergency perimeters
- training and safety demonstrations
- service area control

- mechanical maintenance zones

Why choose us?

We are an experienced manufacturer and direct importer of **road safety equipment**, supplying customers across Europe. Our products offer outstanding durability, fast shipping from our warehouse and excellent value. Each topper includes a full warranty and meets strict safety requirements.
