Weight	5.5 kg
Shipping time	3-7 days

Description

Rubber Parking Separator 560x150x100 PARKatVB - reliable parking safety solution

The PARKatVB rubber parking separator is a durable and highly effective road safety device designed for professional parking space organization. Made of heavy-duty PVC, it is resistant to vehicle impact, mechanical damage and weather conditions.

Safety, visibility and compliance

With dimensions of 560x150x100 mm and a weight of 5.5 kg, the separator prevents vehicles from exceeding designated parking boundaries. The white reflective strip ensures excellent visibility day and night, meeting traffic safety and workplace regulations. Secure installation using mounting anchors guarantees long-term stability.

Wide range of applications

Parking separators protect vehicles, walls, pillars and infrastructure while improving traffic organization.

Additional uses:

1. Pedestrian traffic separation
2. Bicycle lane protection
3. Public transport lane marking
4. Temporary traffic management
5. Restricted area marking

Why choose us

For many years we have specialized in road safety equipment. As a manufacturer and direct importer, we are a trusted supplier across European markets. We offer competitive prices, fast delivery and direct shipment from our warehouse.
